# For the Remainder of the Spring Storm

# Key Points

- Snow will continue across Northern & Northeast Colorado
- Snow, with rain changing over to snow, along I-25 Corridor
- Mostly Rain northeastern corner of the state
- Significant travel impact over the mountains, foothills, and Palmer Divide where temperatures are colder
- Wet & slushy roads may become icy across all of Northeast Colorado Tonight
- Precipitation intensity decreases late tonight into early Sunday morning

# Impacts

- Where snow does fall it will have a high water content and be very heavy
- Snow may cause broken branches that could lead to power outages and structural damage
- Heavy, prolonged snow in the mountains and foothills will cause travel concerns.
  - Road closures possible in mountains
  - Secondary mountain roads may become impassable
  - Travelers should check [cotrip.org](http://cotrip.org) for the latest on road conditions and chain laws through Monday
